Water Informational Forum

The Water Informational Forum will provide the community with updates and accurate information on the current status of the drought, innovative conservation methods, and the future of water in California. The goal is to improve our community as a whole by equipping residents with the necessary resources to continue their excellent conservation efforts in an informed manner.

This event is FREE and open to the public.

Topics Include:
Status of the Drought in California
Conservation Methods
The Future of Water in California
